Which are being shipped from country and also from the overstock- sojourn for a fortnight before going made this year. The exports of beef . cattle will bereafter be a source of That

STOCK-RAISING.

The cattle interest is pext in importance to the mining, but stockmen have met with vicissitudes during the past years. As upon all the western open ranges cattle depend upon -atural grasses for sub-istance, and while in ordinary years the plains, valleys and robing hills of Cochise county are covered with abundant

But this condition of affairs has not been confined to this particular section of the territory nor to Arizoni alone. It is a condition that period nost nutritious varieties, and grow rapidly and abundantly during the F. T. Wrent icit today for his home | seasons of the summer rains, and during the succeeding warm weather any time ride out upon his range and gather up for market a bunch of fat beef steers. Thus he may take advantage of (avorable conditions of the market, and reap far larger profits than the cattlemen on ranges where stock only fattens at one season of the year, and where all must be horgied to the stockyards at the same time.

Sulphur Spring valley affords the most extensive and finest grazing grounds in southern Arizona. From the Chiricahua Cattle Co.'s range down near the Sono a line to where the valley narrows into the Aravaipa canyon on the north, the whole surface is covered with herds, No man laysclaim to any definite area excessed to a southern and the proposals and instructions to before a southern and the perfuser of all hids E. B. ATWOOD Major and Chief Q. M. pressed by met-s and bounds, further than may be immediately adjacent to the partiral springs he may have located, or the well be has bored or dug and from which water is raised by windmill or by horse-power. No man is entitled or permitted to run more cattle on the range than he has provided abundant water for. The San Simon and San Pedro valleys are also covered with a luxuriant growth of of grass and in consequence afford fine grazing lands.
